1 FAST

Outside-accessible blades mean, just like a pocket knife, it can be opened with one hand, quick-style.

2 STRONG

Newly-designed lightweight pliers with wire cutters and folding handles are strong, comfortable and easy-to-use.

3 VERSATILE

Bit drivers let you customize your tool selection to fit any activity and either one of the bits that comes with the tool and can be stored in the handles.

4 ULTRALIGHT

At a mere five ounces, this is the lightest full-size multi-tool on the market.

5 SHARP

Leatherman blades are sharpened to perfection and the Skeletool 420HC and 154CM clip-point knives are no exception.

25-YEAR WARRANTY

Leatherman Tool Group, Inc. proudly stands behind our products. If you ever have a problem with a genuine Leatherman tool, you can count on us to make it right with fast warranty service for a full 25 years from the purchase date.

THE SKELETOOL™ PLATFORM

Today's outdoor enthusiasts want to keep weight and volume to a minimum without sacrificing quality and true functionality. While multi-tools have multiple options, they're often heavier with more features than are used on a regular basis. Conversely, pocket knives are light and streamlined, but render themselves useless when necessary adjustments call for a tool. Enter the new Leatherman platform: Minimal weight, compact size and endless capabilities.

NOW YOU'RE READY... TO DOWNSIZE

At a mere five ounces the new, full-size multi-tool platform from Leatherman features a premium stainless steel blade, pliers, bit driver and carabiner/bottle opener—that's it. Only the most necessary multi-tool features, because sometimes that's all you need. Easily clips onto a belt, pack, or vest—no sheath required.

THE LEATHERMAN DIFFERENCE

Leatherman is known for producing the world's most precisely engineered multi-tools and knives; our manufacturing standards remain unmatched in the industry today. With the new Skeetool™ and Skeetool™ CX the Leatherman tradition of innovation, tight specifications, and premium materials continues to endure. Our expertise doesn't end with our products—it also shows in our service. Competitive pricing, prompt delivery, excellent customer service and outstanding warranty support round out our dedication and commitment to you.
